Canela, miel, crema, leche:

los colores de savanna son sinestesias.

La activación de los sentidos,

la expansión de las emociones,

la intimidad que se abre.

La vista en la perfección y en la elegancia

de los ambientes rigurosos y acogedores.

El tacto de superficies naturales.

El gusto evocado por la elección

de referencias sensoriales agradables.

El alma de la madera,

su eterna belleza, juntas silenciosas y perfectas:

Savanna es la esencia del alma

Entornos que narran el pasado:

en la superficie la belleza contemporánea,

impensados revestimientos de incrustación,

trazan emociones ocultas que cuentan historias antiguas.

Este es el secreto de los lugares del alma:

esos en los que la vida late

y donde cada uno de nosotros encuentra partes de su historia.

Bienvenidos a casa...

Zimt, Honig, Creme, Milch:

Die Farbgebung von Savanna ist Synästhesie.

*Aktivierung der Sinne, Expansion der Emotionen,
sich öffnende Intimsphäre.*

*Der Einblick in die Perfektion
und in die Eleganz strenger,
aber wohnlicher Räume.*

Das Gefühl natürlicher Oberflächen

*Der Geschmack, der durch die Wahl angenehmer
Empfindungszitate evoziert wird.*

*Die Seele von Holz, seine unvergängliche Schönheit,
schweigende, perfekte Fugen: Savanna ist die Essenz der Savanna.*

Einrichtungen, die von der Vergangenheit erzählen:

*Auf der Oberfläche markieren die zeitgenössische Schönheit
und unerwartete Intarsien-Verkleidungen verborgene Emotionen,
die alte Geschichten erzählen.*

Das ist das Geheimnis der Seelenorte:

*Dort pulsiert das Leben
und jeder von uns findet Stücke seiner eigenen Geschichte.*
