

NEW COLLECTION

ZEN

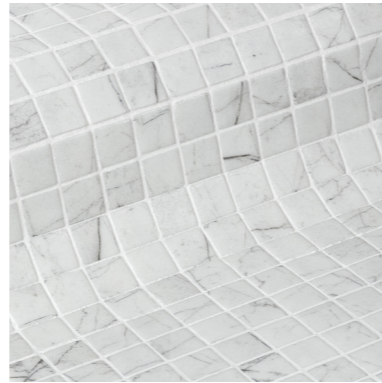

ZEN is a unique, elegant collection of mosaic tiles inspired by natural stone, marble and wood – a much desired look that has not been available to the pool & SPA industry before and was very difficult to achieve in private bathrooms.

The products offer a matt texture in a range of tranquil colours which evoke relaxation in every inch. All of the new mosaics draw inspiration from the simple beauty of nature while also providing the tiled space with a perfect fusion of nuances, reflections and textures. The warmth of wood and the subtle veining of stone come together to form a collection which not only soothes the senses, but also benefits from all the practical qualities and the longevity of porcelain. Use it anywhere you like – from pools to bathrooms and wetrooms.

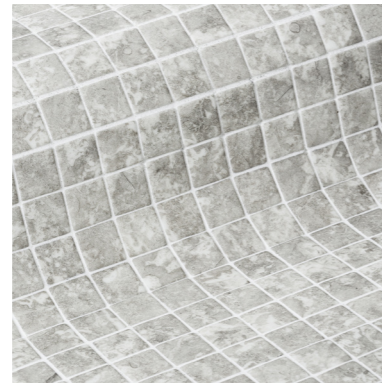

NEW Achieve a sense of balance and harmony with Zen mosaics – a range inspired by natural stone, marble and wood
